

Hi, I'm Rohan Mehta, you can reach me at rohan.mehta.test@email.com or call 91234 56780, I'm based out of Pune. I've been working as an Android developer for about 4 years now. Right now I'm at CloudNine Technologies since June 2021, where I build and maintain Android apps in Kotlin using MVVM architecture, Jetpack Compose for UI, Retrofit for networking, and Room Database for local persistence, and I also set up CI/CD pipelines with GitHub Actions for automated builds and testing. Before that I was at PixelWorks Studio from 2019 to 2021 as a junior developer, working mostly in Java on XML-based layouts and basic REST API integration. I know Kotlin, Java, Jetpack Compose, MVVM, Retrofit, Room Database, Firebase, GitHub Actions, JUnit, and Git. I completed my B.E in Information Technology from Pune University in 2019.
